

15TH ANNUAL INTERNATIONAL ABOVEGROUND STORAGE TANK CONFERENCE & TRADE SHOW
ROSEN SHINGLE CREEK HOTEL | ORLANDO, FLORIDA

NISTM CO-LOCATED EVENT:
SHOP FABRICATED TANK SYSTEMS
PRINCIPLES & PRACTICES OF DESIGN & INSTALLATION
Orlando, FL | March 11-12, 2013

This course brings together the regulations, codes, industry standards and numerous practical examples of real world tank systems-those with problems, and those in compliance.

The typical cause of a release is that the various components of a fuel system are either not in compliance with applicable codes and standards or they have deteriorated to the point of being non-functional. Overfill valves, anti-siphon valves and oil safety valves are essential for many fuel systems and un-needed for others.

For example, oil safety valves must be installed at the bottom drain of a tank to properly function. Conversely, anti-siphon valves must be located on the top of a tank. These are some of the critical items that are not appreciated by many installers. This lack of understanding is what allows so many very preventable fuel releases to occur.

COURSE OUTLINE

Speaker: John V. Cignatta, PhD, PE

Monday, March 11, 2013 | 12:00pm – 6:00pm

- Tank System Basics
- Critical Items in Standards
- Major Ancillary Components
- Codes & Regs-What is needed for compliance?
- 40 CFR 112 requirements
- Integrity Testing-Made Easy
- Why pressure tests are not typically done but UT measurements are formal
- External/Internal Inspections per SP-001
- Periodic Inspections by Owner-the most essential checks of all

Tuesday, March 12, 2013 | 8:00am – 5:00pm

- Overfill Control that works
- Spill prevention that will catch a spill
- Anti-siphon that controls siphoning
- Oil safety valves that stop the flow to broken pipes
- Secondary containment (Be careful what you certify as "sufficiently impervious")
- Grounding
- Venting
- Dispenser issues
- Details for Spill Plans Addressing "Most Likely Release" Scenarios

15TH ANNUAL INTERNATIONAL ABOVEGROUND STORAGE TANK CONFERENCE & TRADE SHOW
ROSEN SHINGLE CREEK HOTEL | ORLANDO, FLORIDA

CO-LOCATED EVENT: SHOP FABRICATED AST CLASS REGISTRATION FORM

SHOP FABRICATED AST MARCH 11-12, 2013

This day and a half day course brings together the regulations, codes, industry standards and numerous practical examples of real world tank systems-those with problems, and those in compliance. Topics covered include: Tank System Basics, Codes & Regs, Integrity Testing, Critical Component Issues, and details for Spill Plans to address and control "Most Likely Release" Scenarios.

March 11th | 12:00pm – 6:00pm
March 12th | 8:00am – 5:00pm

REGISTRATION FEES:

- ☐ 1 Attendee is \$285.00
☐ 2 Attendees is \$520.00
☐ 3 Attendees or more is \$225.00 per person

GOLF TOURNAMENT MARCH 12, 2013

NISTM will be hosting its 6th Annual Golf Tournament. The shotgun will start at 1pm.
