

CO-LOCATED EVENT: LIQUID TERMINALS 101

Course Syllabus and Schedule

Want to learn more about Liquid Terminals? Then this is the class for you!

This program will cover a wide variety of topics that will give you a better understanding of how terminals function in the real world and explain many critical aspects that you should be aware of to run terminals safely, efficiently, and profitably.

Topics include types of terminals, modes into and out of terminals, tanks (designs, inspection, repair, and operations), types of products handled, including key aspects of operations and maintenance. Critical elements of safe operations, asset integrity, and regulatory and environmental compliance will also be discussed in detail. And finally, we will show how terminals can be very profitable when properly managed.

Speakers: Earl Crochet, P.E. “The Tank Whisperer” from Crochet Midstream Consulting and Dave Cushman, CSP, from West Virginia Paint LLC
